MANAGEMENT REPORT

In the third quarter (1 July - 30 September) of the 2014 financial year AS Tallink Grupp and its subsidiaries' (the Group) carried nearly 2.6 million passengers which is 5.8% less compared to the same period last year. The number of cargo units transported increased by 1.0% and the number of passenger vehicles transported decreased by 3.7% for the same period as last year.

The Group's consolidated revenue in the third quarter was EUR 262.7 million, being 5.7% or EUR 15.7 million less than a year ago. In the third quarter of the 2014 financial year the Group's gross profit amounted to EUR 69.6 million and EBITDA to EUR 64.0 million being respectively EUR 10.2 million and EUR 8.6 million less compared to the same period last year.

The unstable macro-economic situation in Europe has had a negative impact to the Group's operations. The decline in the passenger volume from the Russian market continuous to be visible, decreasing by 25% in the third quarter, compared to the same period last year.

The Group has been working for a smoother transition facing the sulphur regulations and one of the goals has been to reduce fuel consumption by optimising our current operations, therefore several re-routings were made: the cruise ferry Silja Europa was chartered out, the cruise ferry Baltic Queen changed to the Tallinn-Helsinki route and the cruise ferry Romantika changed to Tallinn-Stockholm route, leaving the Riga-Stockholm route with the cruise ferry Isabelle as the only vessel. Majority of the decline of the third quarter results was a direct one-off effect related to the re-routing of the vessels, chartering out Silja Europa and the Silja Symphony docking. These changes in the operations are a good reference of the flexibility of our business and ensure that we are better prepared for the upcoming year.

In the third quarter the Estonia-Finland route showed a slight decline with passenger's numbers decreasing by 3.3%, cargo units transported increased by 11.5% and the sales numbers remained on the last year's level. The results were affected by a competitor bringing more capacity to the Tallinn-Helsinki route. The Finland-Sweden route showed a decline with passenger's numbers decreasing by 5.5%, cargo units transported decreased by 11.0%, the sales numbers decreased by 7.4%. The results were affected by Silja Symphony being out of operations in September. The Latvia-Sweden route showed a decline with passenger's numbers decreasing by 23.3%, cargo units transported decreased by 42.5%, the sales numbers decreased by 24.5%. The results were affected by Romantika changing to Tallinn-Stockholm route, leaving Isabelle as the only operating vessel on the route.

In the third quarter the charter revenue increased by 58.9% or EUR 5.2 million, this is a result of more vessels being in charter and is expected to have a positive effect to the profitability in the forthcoming quarters. The total number of vessels currently chartered out is six, while last year at the same time four vessels were chartered out.

While pricing the cargo services for next year the upcoming rise in the fuel price related to the switch to the low sulphur fuel has been taken into account. Pricing of the passenger service will depend on market demand, competition and seasonality.

The unaudited net profit for the third quarter of the 2014 financial year was EUR 36.2 million or EUR 0.05 per share compared to the net profit of EUR 44.0 million or EUR 0.07 per share in the same period last year.

The total liquidity, cash and unused credit facilities at the end of the third quarter were EUR 66.7 million providing a strong position for sustainable operations. At the end of the third quarter 2014 the Group had EUR 66.1 million in cash and equivalents and the total of unused credit lines were at EUR 0.5 million.

EVENTS IN Q3

AS Tallink Grupp and Bridgemans Services Ltd. entered into a charter agreement to charter the cruise ferry Silja Europa to Australia from August 2014 as an accommodation vessel. The period of the charter is at least 14 months with an option to extend up to 48 months. In relation to the above the following re-routings took place: Baltic Queen which was operating on Tallinn-Stockholm changed to Tallinn-Helsinki route in August 2014 and Romantika which was operating on the Riga-Stockholm route changed to Tallinn-Stockholm route. Isabelle continues the service on the Riga-Stockholm route.

A subsidiary of AS Tallink Grupp, Baltic SF IX Limited and Marine Atlantic Inc, a Canadian company with the state participation therein, concluded to extend the current charter agreement of MV Atlantic Vision (ex. Superfast IX) for one year, until November 2015. The vessel has been on the long-term bareboat charter since November 14, 2008.

EVENTS AFTER THE BALANCE SHEET DATE AND THE OUTLOOK

The Group's earnings are not generated evenly throughout the year. Summer period is the high season in the Group's operations. In the opinion of the management and based on the experience of the previous financial years the majority of the earnings are generated during summer (June-August).

The Supervisory Board of AS Tallink Grupp accepted the resignation letter of the Chairman of the Management Board, Chief Executive Officer Enn Pant, effective from 1st of January 2015. The Supervisory Board will propose to the Special Shareholders General Meeting to elect Mr. Pant as a member of the Supervisory Board and sees him as the new Chairman. The Supervisory Board of AS Tallink Grupp elected on 11th of September 2014 the Group's member of the Management Board and Chief Financial Officer Mr. Janek Stalmeister (born 1974) as the Chairman of the Management Board and the Chief Executive Officer of AS Tallink Grupp, effective from 1st of January 2015.

The management board issued a notice call for a Special General Meeting on 11th of November 2014. The Special General Meeting will be held on 5th of December. The draft resolutions are: 1) Election of the member of the Supervisory Board, 2) Remuneration for work of the member of the Supervisory Board.

The cruise ferry Silja Symphony was out of operations in September and October for a total of 41 days undergoing an extensive upgrade of the public areas. In October the refreshed vessel Silja Symphony was launched on the Stockholm-Helsinki route. The vessel has a 50% expanded shopping area and includes upgrades to stores, the buffet and features a new Italian restaurant and a Sushi restaurant. Several of the public areas received a facelift including the refurbishment of cabins, a refreshed SPA & Sauna area and a visually upgraded promenade. The vessel also features a new playroom for children called "Silja Land". The maintenance & upgrade works resulted temporarily in fewer voyages and hence lower passenger and cargo volumes on Sweden-Finland routes.

The Group plans to start operating the cargo ferry Sea Wind between Finland and Estonia in the beginning of 2015. Sea Wind will discontinue operating between Finland and Sweden in the end of December, 2014.

The vessels are in the final stage of preparations to start using low sulphur content marine fuel from first on January 2015.

With an aim to increase revenue generation improvements in product development are being made, emphasis is on retail sales and upgrades to the public areas on selected vessels.

AS Tallink Grupp does not have any substantial on-going research and development projects.

The Group does not have any major investment commitments currently.

Due to increased competition, continuously weak Nordic economic environment and one-off effects the Management expects the annual results to be weaker for the 2014 financial year compared to the last year. During the financial year several steps have been taken including charters, upgrades and re-routings with the goal to optimise operations, therefore management expects the fourth quarter results to improve, when compared to the same period last year.

RISKS

The Group's business, financial condition and results from operations could be materially affected by various risks. These risks are not the only ones. Additional risks and uncertainties not presently known to us, or that we currently believe are immaterial or unlikely, could also impair our business.
